

VALLON UXO DETECTOR - FERROUS Locator VX1

FERROUS locator VX1 in operation

FERROUS locator VX1 used in borehole

Specification:

Dimensions

- Search head: Search sensor (Tube with diameter 32mm).

Weights

- Operation: 3.2 Kg

Power supply

- Rechargeable battery (Ni-MH) D-size x 4
- Standard battery (Alkaline) D-size x 4

Operational conditions

- Max battery life: Standard battery (Alkaline) 60 hours.
- Metal alarm signal: 1. Visual LED bar graph. 2. Audio signal.
- Operation: 1. Manual detection.
2. Data logger.
3. Data logger with DGPS (CMAC did practice))

Environmental conditions for storage and operation

- Operation of temperature (from -31°C to +63°C)
- Storage of temperature (from -51°C to +71°C)
